

Grading form Machine Learning with Big Data – Assignment 2

Group: _____
Student 1: _____
Student 2: _____

Entry requirements

Requirement	State
All code handed in in Jupyter Notebooks with both code and documentation cells and model is exported	

Criteria

Criteria	Feedback	Points
Yahtzee (40pt)		
Network structure and code (15pt)		
Training + testing with graphs and conclusions (25pt)		
Rune dataset (40pt)		
Network structure and code (15pt)		
Training + testing with graphs and conclusions (25pt)		
Extra work (20pt)		
Additional work		
Total		
Number of points
